EDUCATION

Panipat Institute Of Engineering And Technology

Bachelor of Technology in Computer Science

Panipat, Haryana

July. 2021 – July 2025

D.A.V Public School

Class 12th CBSE

Panipat, Haryana

March 2020 – March 2021

D.A.V Public School

Class 10th CBSE

Panipat, Haryana

March 2018 – March 2019

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C/C++

Query Languages: SQL

Web Technologies: HTML, CSS, JavaScript, MongoDB, TypeScript

Frameworks: Express.js, Next.js, Nest.js, Tailwind CSS

Libraries: React.js, Redux, Axios, Mongoose, AG Grid, React-PDF, React Flow, ShadCN UI, Ant Design

Payments: Stripe, Razorpay

Developer Tools: Git, GitHub, VS Code, IntelliJ, Postman

PROJECTS

TRUX Website | *Next.js, AG Grid, Server Actions, React-PDF, ShadCN UI*

- * Built enterprise-level AG-Grid tables with advanced filtering, sorting, and server-side operations.
- * Integrated Adobe Sign and DocuSign for seamless digital agreement workflows.
- * Implemented webhook listeners for real-time agreement status updates.

Chat App | *Next.js, Node.js, ShadCN UI*

- * Developed real-time messaging functionality using WebSockets.
- * Implemented typing indicators and message delivery status updates.
- * Designed an optimized, responsive chat UI using React and Tailwind CSS.

3D Visualizer Powered with AI | *Three.js, React.js, Node.js, Express*

- * Integrated AI APIs to generate and manipulate real-time 3D models.
- * Enhanced user interaction with dynamic AI-driven visual responses.
- * Optimized 3D rendering accuracy using AI-assisted algorithms.

Multi-Product Selling Website | *React.js, CSS, Node.js, Express, REST APIs*

- * Developed a full-stack e-commerce platform with integrated secure payment gateway.
- * Enabled multiple payment options for smooth and intuitive checkout flow.
- * Implemented real-time payment verification for safe transactions.

Portfolio Website | *React.js, CSS*

- * Built a modern personal portfolio showcasing skills and projects with responsive design.
- * Implemented reusable React components for easy maintenance and scalability.
- * Enhanced user experience through smooth navigation and animations.

EXPERIENCE

Cloud Analogy

Full Stack Developer

February 2025 – present

- * Worked on Project Trux
- * Implemented AG-Grid tables with server-side pagination, sorting, and filtering
- * Integrated Adobe Sign DocuSign
- * Enabled webhooks for real-time status updates (agreement created, signed, completed, etc.)
- * Worked on React pdf renderer library

Codeclause

Intern

July 2024 – August 2024

- * Built a 3D visualizer during my internship, integrating AI APIs for real-time model rendering.
- * Designed and implemented AI-driven features in a 3D visualizer project during my internship.
- * Developed an interactive 3D visualizer as part of my internship, enhancing user engagement with AI-powered visuals.

Systemic Altruism

July 2024 – September 2024

Internship

- * Worked with the Front-end developer using React, Redux and Tailwind CSS designing

Internpe

July 2023 – August 2023

Internship

- * Developed an e-commerce website during my internship, integrating a secure payment gateway.
- * Streamlined product management and checkout processes for enhanced user experience.
- * Implemented real-time payment verification and multiple payment options for seamless transactions.

SKILLS AND INTERESTS

Skills: Data Structures and Algorithms, Problem Solving, System Design Basics, API Design, Debugging and Troubleshooting, Clean Code Practices, Git Workflow, Teamwork, Adaptability, Communication

Interests: Powerlifting, Table Tennis
